***Response to Amendment***

Applicants' Appeal brief filed on June 25, 2003 has been entered.

Therefore claims 1-14 and 16-24 as recited in the Appeal brief are currently pending in the Application.

***Allowable Subject Matter***

Claims 1-14 and 16-24 are allowed.

***Reasons for allowance***

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include a method of forming air gaps between metal leads of a semiconductor device including the steps of two network of nitride filled trenches in two levels of dielectric , wherein the first nitride network is deposited on the substrate and the second nitride network on the first network and further the second nitride network is in physical contact with and intersects with the first network of nitride filled trenches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
